# Money

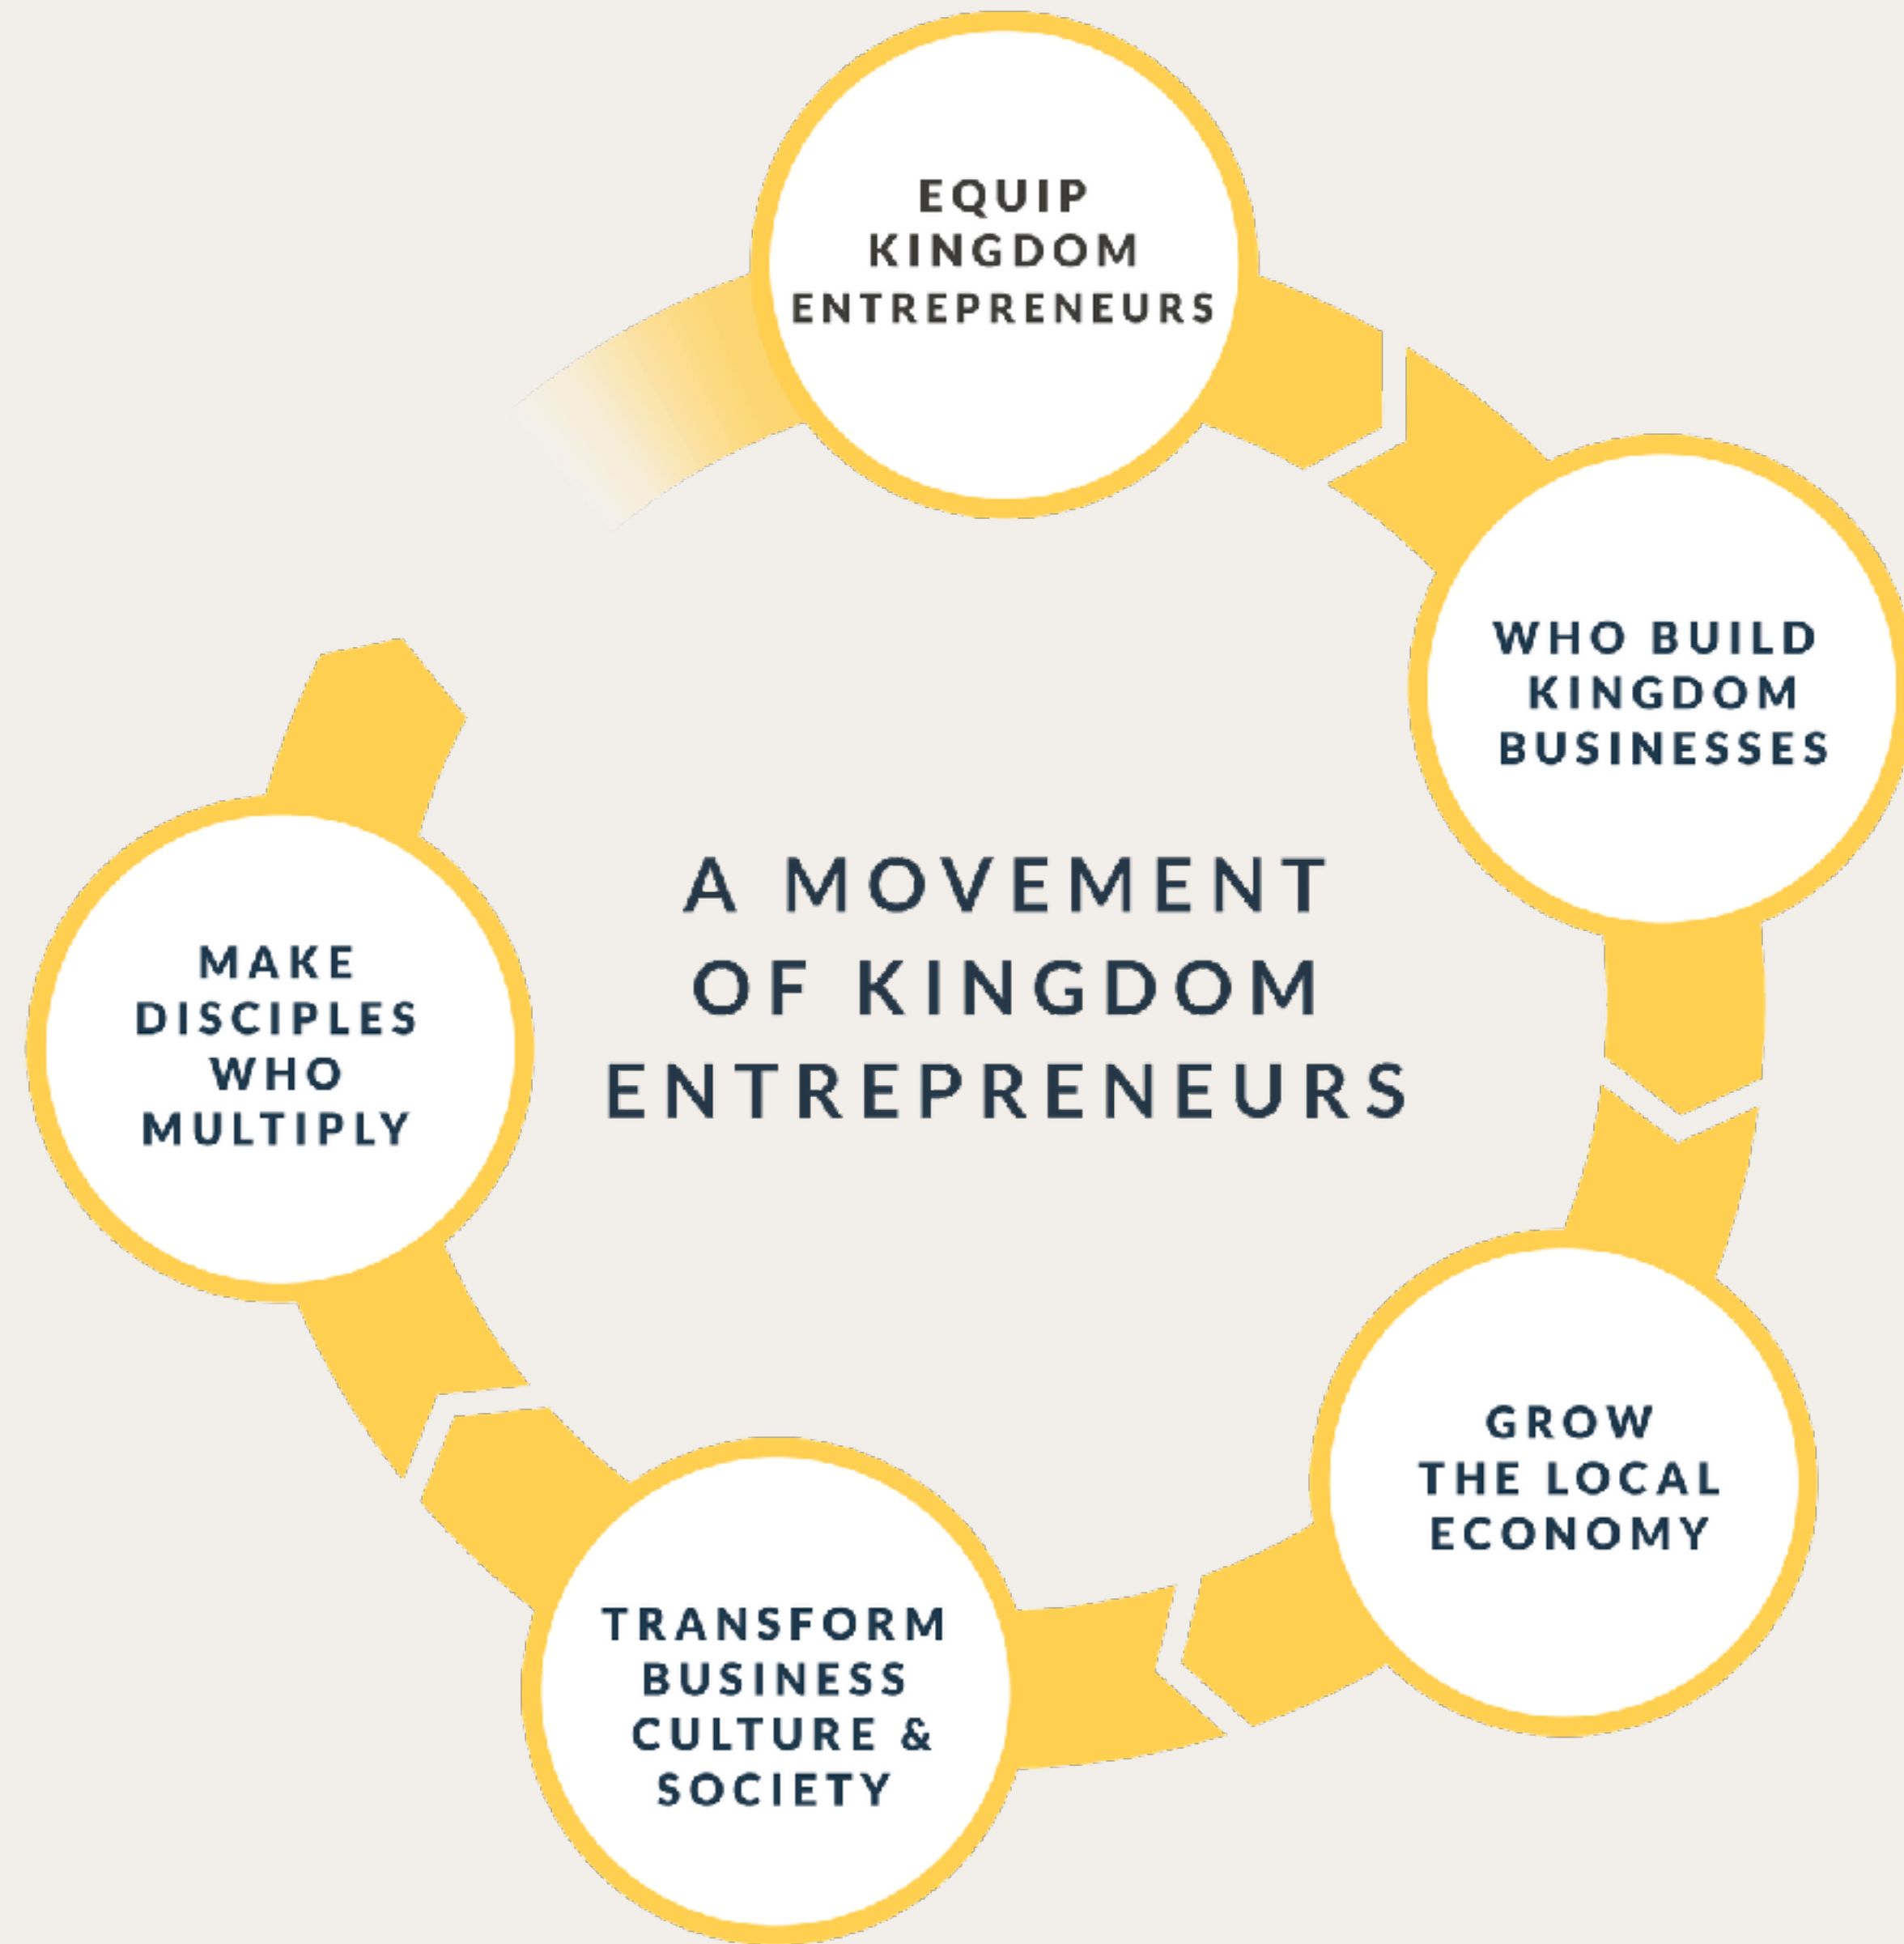

- A single adult in the US earning \$30,000 a year is in the richest 4.7 percent of the global population.
- A US couple with one child who makes \$75,000 a year is in the richest 3.7 percent of the the global population.
- A family of 6 in the US making \$100,000 is in the top 5.8 percent of the global population. 9.6 times more wealthy that the global median.

He is no full to give up what he can not keep  
to gain what he can not lose.

Jim Elliot

As base a thing as money often is, it yet can be transmuted into everlasting treasure. It can be converted into food for the hungry and clothing for the poor; it can keep a missionary actively winning lost men to the light of the gospel and thus transmute itself into heavenly values. Any temporal possession can be turned into everlasting wealth. Whatever is given to Christ is immediately touched with immortality.
